

Russia, St. Petersburg,

## Summary

1. **Volume of investments required – \$ 210 thousand.**
2. **Production** – optical modulators, crystal modulator components.
3. **Trade marks** – none.

## Company profile

**Date of establishment** – April 2006.

**Signs of public recognition** – winner of “Start 06” state program, FASIE.

**Number of employees** – 5 persons.

## Team

**Abusev Valery** – Director.

**Karavaev Pavel** – Technical Director.

**Vcherashnij Boris** – Head of optical manufacture.

## Products characteristics

Optical modulators and their crystal components, spatial light modulators, crystal components for optical voltage sensors.

## Current state

Prototypes and samples of optical spatial light modulators are existing. Long-term contracts are existing. Current manufacture and supply of simple electro-optical modulators are developed. Next patents are expected for sensors and device of magneto-optical spatial light modulators.

## Development strategy

### Use of funds

- |                                  |     |
|----------------------------------|-----|
| 1. R&D                           | 10% |
| 2. Acquisition of fixed assets   | 35% |
| 3. Marketing                     | 10% |
| 4. Acquisition of current assets | 20% |
| 5. Other                         | 25% |

## Prospective outcome of investment

We are looking for investments into optical manufacture development, technology and company staff. Detailed perspectives are presented in development company strategy.

## Marketing & Markets

Main marketing aspects are displayed in business plane of company for 2007–2009 years.

## Interaction with investor

We offer up to 25% share of the company capital as a guarantee for investments within 2007–2009 years.
